

**Avalon**  
BATHROOMS

*Redefining your space*

# Welcome TO AVALON BATHROOMS

Avalon Bathrooms is a proud member of the Bathroom Manufacturer Association (BMA) and also now a member of Made In Britain organisation, which showcases the very best in British manufacturing. Companies who join the organisation are committed to producing the finest products to the highest standards.

Our furniture is designed around three fundamental principles:- making best space of the room available; using fittings and components high in specification; making it easy to install.

These principles are as true today, as they were when the product design was conceived.

Avalon Bathrooms come in three collections:-

**fitted** - representing a carefully selected range of fitted bathroom furniture cabinets, enabling the smallest of rooms to provide much needed storage space for everyday requirements. Within our fitted range, we select 6mm frosted safety glass shelves, with locking chrome adjustable brackets - ensuring the furniture looks at home within the bathroom environment.

**cloakroom** - is equally at home in a cloakroom, ensuite or bathroom. Uncomplicated and designed to be used as individual pieces but is flexible enough to be mixed with fitted or modular furniture to complete the perfect bathroom.

**modular** - a carefully selected range of modular bathroom furniture cabinets. Wall hung basin cabinets feature four fixing points that assist with alignment and secure the unit for peace of mind. Can also be planned with our other fitted or cloakroom cabinets to suit any bathroom layout requirement.

All cabinets are manufactured in 18mm MFC and constructed with glue and dowel, avoiding unsightly exposed metal cams. Doors are supplied fitted to the cabinets. Our furniture cabinets carry a 5 year guarantee (details of which are on the inside of the back cover).

Doors close softly, due to hinges that have soft close mechanisms, integral to the hinge. Soft close can be turned off on one hinge to accelerate the closing action, if required. Alternatively, fitted cabinets may be specified with "touch to open" and no handles (doored cabinets only).

Avalon Bathrooms are proudly manufactured in Britain and are functional whilst offering exceptional value for money, without compromise.

## Bathroom Styles

Prepare to be captivated by the art of bathroom design as you explore a curated collection of exceptional bathrooms.

Avalon bathroom furniture is meticulously crafted to redefine the way you experience your bathroom. Delve into a palette of captivating colours, exquisite finishes, and cutting-edge bathroom fittings that blend aesthetics with practicality.

### Shaker

Enhance the beauty of your bathroom with traditional style shaker doors in a variety of colours, providing a timeless and elegant touch to any home.

### Handleless

Transform your bathroom with a modern, handleless design. Available either with an integrated handle or set on profiles as a slab door.

### Slab

The contemporary slab bathroom features a streamlined look, with a flat door and a soft radius edge. Available in a range of colours, from classic white and neutrals to heritage hues.

coming  
soon...

## Our Ranges

At times, it can be difficult to identify the best bathroom furniture option from the seemingly endless array of possibilities. We have plenty of resources available to make the process easier, including categories below and a directory in the back of the book. Whether you're looking for something natural, a flat door, or a shaker style, we can help you find the right bathroom.

## Tempo Colour

### Range

**Enhance the modern appeal of your bathroom with Tempo, featuring a bold dark hue and a matt finish for striking visual impact.**

The rich, charcoal tone combined with the sleek, slab design makes these Tempo fronts a standout element in any space. Whether in a small WC or a larger family bathroom, the deep, dark colour creates a warm, intimate atmosphere. Choose from a variety of cupboard options to create a tailored fit for rooms of all sizes, providing ample storage while keeping essentials neatly tucked away.

## Product Icons

Quickly identify key features with our easy-to-understand product icons.

**Height**  
The overall height of the handle.

**Width (Length)**  
The overall width/length of the handle.

**Hole Centres**  
Indicates the measurement between the centre of the handle holes.

**Projection**  
How far the handle extends from the surface of the cabinet fascia.

Handles

Chrome Handles

Stylish and sophisticated

Handles are illustrated as if they are fixed to a door or drawer fascia, helping you visualise your bathrooms final look. All pull handles are illustrated horizontally.

# The Unique Combi Space Saver Cabinets

A unique solution to the smallest room, cloakroom, understairs.

Easy installation.

Multiple fascia, tap and pan options.

The Combi Unit answers the need for both Pan and Basin in one unit to create the WC solution in the smallest of spaces with all pipework enclosed.

The internal dimensions of the WC Cabinet allow for cistern fittings and a macerator such as a Saniflo, if required.

The dimensions shown are the minimum sizes taken up by the Combi Unit and pan.

Services contained within the unit and the ease of installation are fundamental to the design of the Combi Unit.

The lack of visible pipework adds to the visual appeal.

These were all considerations in creating a solution to the smallest of spaces.

Registered Design 4016148

Available in all finishes

## Door Colour Options

If ordering using long codes, simply add the range/colour suffix.  
Example: the long code for a 600 Modular 1 Drawer Basin Unit (AP60451DBA) in Metro Indigo (METIN) is AP60451DBAMETIN.

	Dust Grey	Fjord	Grey Mist	Indigo	Kashmir	Reed Green	Rose
Metro	METDG	METFJ	METGM	METIN	METKA	METRG	METRO

## Cabinet Colour Options

River Wash only.

Wood Effect **River Wash**

## Product Icons

Quickly identify key features with our easy-to-understand product icons.

	<b>Height</b> The overall height of the product.		<b>Width</b> The overall width of the product.		<b>Depth</b> The depth of the product excluding any fascias.
	<b>Depth with Fascia(s)</b> The depth of the product including a 20mm nominal fascia depth.		<b>Distance from Floor</b> The space between the bottom of the product and the floor.		<b>Distance to Top</b> The distance from the floor to the top of the product.
	<b>Number of Doors</b> The total number of working or functional doors.		<b>Number of Drawers</b> The total number of working or functional drawers.		<b>Number of Shelves (Loose)</b> The number of shelves that can be repositioned or removed for flexible storage.
	<b>Number of Shelf Positions (Loose)</b> The number of height options for positioning loose shelves.		<b>Wall Hangers Included</b> If wall hangers are included with the furniture price.		<b>Carcase Back Panel Type</b> Fixed (full height) or Removable (reduced height), if applicable.
	<b>Drawer Box Colour</b> The colour of the drawer box.		<b>Shelf Colour (Fixed)</b> The colour of the fixed shelf (select Tower Cabinets only).		<b>Worktop Colour</b> The colour of the worktop (WC Units only).

# Panels & Plinths

## Panels & Plinth Categories

Complete your bathroom design with our range of panels and plinths.

**Plinth**  
A decorative panel installed at the base of cabinets to conceal the legs. Available in 3 sizes.  
**Also known as:** Kickboard, Toe Kick

**Filler Panels**  
Used to fill gaps between your cabinets and structural walls, ensuring a flush, fitted finish.  
**Also known as:** Infill Panels

**Fitters Panels**  
A decorative panel designed to finish exposed cabinet sides, often used to support worktops. Used as an alternative to Plinth Returns.  
**Also known as:** Base End Panels, End Support Panels

**Universal Panels**  
A universal panel is a versatile, oversized panel that can be cut to fit various applications, such as custom cabinetry or wall cladding.  
**Also known as:** Showback Panels, Island Panels, Fitters Panels

**Bath Panels**  
Bath panels are used to conceal the sides of a bath, offering a neat, streamlined look while hiding plumbing and support structures.

**Corner Base Panels**  
Used to cover the unused/void space of a corner cabinet. Provides a clean and seamless appearance while maintaining accessibility to adjacent units.  
**Also known as:** Blanking Panels

**Cabinet Edging Tape**  
Cabinet edging tape can be applied to the exposed edges of cut panels to create a finished look and protect against wear and moisture.

## Product Icons

Quickly identify key features with our easy-to-understand product icons.

**Additional Edging**  
If additional edging is supplied with the product (for re-edging any exposed/cut edges).

**Plinth Seal**  
Whether a water-resistant seal is supplied to protect the plinth against floor-level moisture.

Basins

## Basin Depths

Choose from a variety of sizes designed to align seamlessly with your chosen cabinet depth, ensuring an effortless match between basin and furniture. Stated cabinet depths are inclusive of cabinet fascias.

### Slimline

For slimline depth furniture. Available in Semi-recess mounting type only, limited to our Fitted furniture collection.

### Standard

For standard depth furniture. Available in Semi-recess and Sit-on mounting types via the Fitted and Cloakroom furniture collections.

### Mini Cloakroom

For mini cloakroom depth furniture. Sit-on basin available on select furniture. Cloakroom furniture collection only.

### Cloakroom

For cloakroom depth furniture. A specialist Sit-on basin available on select furniture. Cloakroom furniture collection only.

### Combi

For Combi WC Unit only. A space-saving basin with a unique, trademarked design.

### Modular

For modular depth furniture. Available in Sit-on mounting type only and exclusive to the Modular furniture collection.

## Basin Mounting Types

Discover a variety of basin mounting to suit every bathroom design.

### Semi-recess

A semi-recess basin is installed on top of your furniture or worktop, with the bowl protruding over the front of the cabinet or unit. This setup requires a false (or dummy) basin fascia, which is fabricated around the basin apron to arrive at a professional look.

**Also known as: Semi-inset Basins, Semi-countertop Basins**

### Sit-on

A sit-on basin is designed to sit directly on top of your basin or drawer unit, not a worktop, providing a modern and seamless look. The furniture is specifically designed to support the basin.

**Also known as: Inset Basins**

### Vessel

A vessel basin sits entirely on top of a worktop, like a decorative bowl, creating a bold and luxurious feature. These basins are fully freestanding and require no worktop fabrication - just a simple hole for a waste pipe connection.

**Also known as: Countertop Basins, Surface-mounted Basins**

## Product Icons

Quickly identify key features with our easy-to-understand product icons.

### Colour by Dominance

The primary colour of the product.

### Overflow Colour

The colour of the overflow insert or ring.

### Material by Dominance

The primary material composition of the product.

### Cabinet Width

The required cabinet width for installation.

### Cabinet Depth with Fascia(s)

The required cabinet depth (with fascias) for installation.

### Basin Profile Height

The height of the basin that sits on the furniture, key for choosing a worktop.

### Worktop Required?

Whether a worktop is essential for installation.

### Number of Tap Holes

Pre-drilled tap holes. Select twin basins require 2 taps.

### Overflow Position

By design, some basins have an offset overflow.

### Waste Compatibility

Basins with an overflow require a slotted waste.

Taps

## Tap Types

Select from range of matching taps to suit all applications.

### Basin Taps

Basin mounted taps are fixed directly onto the basin for a sleek, integrated look and providing controlled water flow for washing hands or face.

### Mini Basin Taps

The perfect solution for small basins, providing a sleek and space-saving design without compromising on performance.

### Hi-rise Basin Taps

These taps feature a taller spout, offering a greater clearance over the basin, making them ideal for deeper vessel basins or creating a more dramatic, modern look.

### Bath Fillers

Taps designed specifically for filling a bathtub, usually with a spout and separate controls for hot and cold water, allowing for precise water temperature control when filling the bath.

## Product Icons

Quickly identify key features with our easy-to-understand product icons.

### Colour by Dominance

The primary colour of the product.

### Material by Dominance

The primary material composition of the product.

### Spout Height

The distance from the base of the tap to the underside of the spout.

### Spout Reach

The horizontal distance from the centre of the tap base to the centre of the spout.

### Shape

The overall design style of the product, such as round or square.

### Operating Pressure

The ideal water pressure range for optimal tap performance.

WC Pans

## WC Pan Types

Explore WC pan styles designed to suit any bathroom layout and installation.

### Back to Wall

Designed to pair with WC units, this pan sits flush against the unit, concealing the cistern and plumbing for a seamless and tidy appearance.

### Wall Hung

A modern WC with floating design mounted to a concealed wall hung frame, offering easy cleaning and a spacious, open look.

**Wall Hung Frame required**

## Flush Button Types

Discover a range of flush button options, from sleek designs to innovative features, tailored to enhance both style and functionality in your bathroom.

### Flush Buttons

Manual controls for activating the flush, available in a range of styles and finishes to complement your design.

### Flush Sensors

Touchless flushing technology activated by a motion sensor for enhanced hygiene and convenience. Typically battery-operated with optional mains adapter.

## Product Icons

Quickly identify key features with our easy-to-understand product icons.

### Colour by Dominance

The primary colour of the product.

### Shape

The overall design style of the product, such as round or square.

### Adjustable Height

The range within which the height of the product can be adjusted.

### Flush Button Type

The style of the flush button, such as dual-flush or single-flush.

### Seat Hinge Colour

The colour of the hinges connecting the seat to the pan.

### Soft Close Seat

Indicates whether the toilet seat features a soft-close mechanism.

### Adjustable Depth

The range within which the depth of the product can be adjusted.

### Flush Button Operation

How the button functions, such as push or sensor-activated.

### Material by Dominance

The primary material composition of the product.

### Load Rating

Indicates the maximum weight capacity the product is designed to support.

### Projection

How far the product extends from the surface of the cabinet fascia.

# Lighting & Mirrors

## Lighting Types

Choose from under-cabinet, over-cabinet, or plinth lighting to enhance your bathroom's ambiance and functionality.

### Under Cabinet Lights

Installed on the underside of your cabinets, this lighting shines downward, illuminating your work-top and creating a soft, ambient glow in your bathroom.

**Also known as: Pelmet Lights**

### Over Cabinet Lights

Mounted above your cabinets, this lighting provides functional overhead illumination, casting light over your space for a well-lit and inviting atmosphere.

**Also known as: Cornice Lights**

### Plinth Lights

Plinth lights are installed at plinth level, casting subtle light onto the floor to add a modern touch and enhance the overall design.

**Also known as: Kickboard Lights**

## Mirror Types

Select between standard mirrors or illuminated mirrors to suit your style and lighting preferences.

### Standard Mirrors

A traditional mirror designed for simple, functional use, offering a clear reflection with no added features, perfect for any bathroom style.

**Also known as: Plain Mirrors, Traditional Mirrors, Conventional Mirrors**

### Illuminated Mirrors

Integrated with built-in lighting, these mirrors provide even illumination for better visibility, perfect for tasks like shaving or applying makeup, while also adding a modern, sleek design element.

**Also known as: LED Mirrors, Backlit Mirrors**

## Product Icons

Quickly identify key features with our easy-to-understand product icons.

### Colour by Dominance

The primary colour of the product.

### Light Bulb Colour

The colour of the light, such as cool white, warm white, or daylight.

### Material by Dominance

The primary material composition of the product.

### Light Bulb Temperature

The colour temperature of the bulb, measured in Kealvin.

### Light Operation

How the light is activated, such as by sensor, switch, or remote control.

### IP Rating

Indicates the level of protection against dust and water. IP stands for 'Ingress Protection'.

### Shape

The overall design style of the product, such as round or square.

### Mirror Demister Pad

If the mirror includes a built-in demister pad to prevent fogging.

FITTED UNIT SIZE OPTIONS

**Fitted** cabinets available in both Slimline and Standard depths.  
Slimline cabinet 202mm deep (excluding fascia).  
Standard cabinet 320mm deep (excluding fascia).

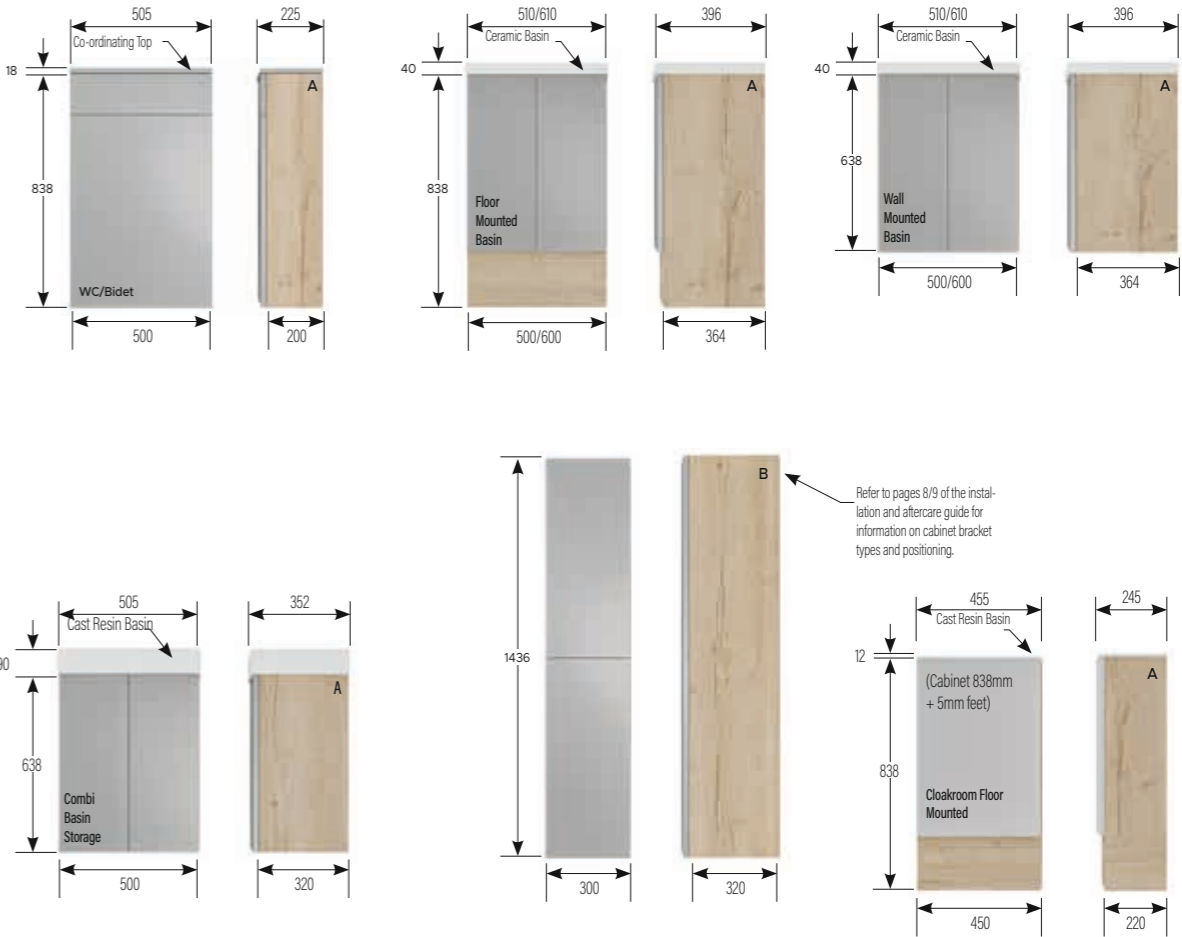

Please Note:  
Letters 'A' 'B' & 'C' indicated in cabinets are for positioning of wall hanging brackets. Please use diagrams on page 9 of your Installation & After Care Guide for dimensions showing fixing positions.

FITTED UNIT HEIGHT CONFIGURATIONS

**Fitted** cabinets available in sizes specified below.  
Depths are excluding fascia

**Cloakroom** cabinets available in sizes as specified below.  
Depths are excluding fascia

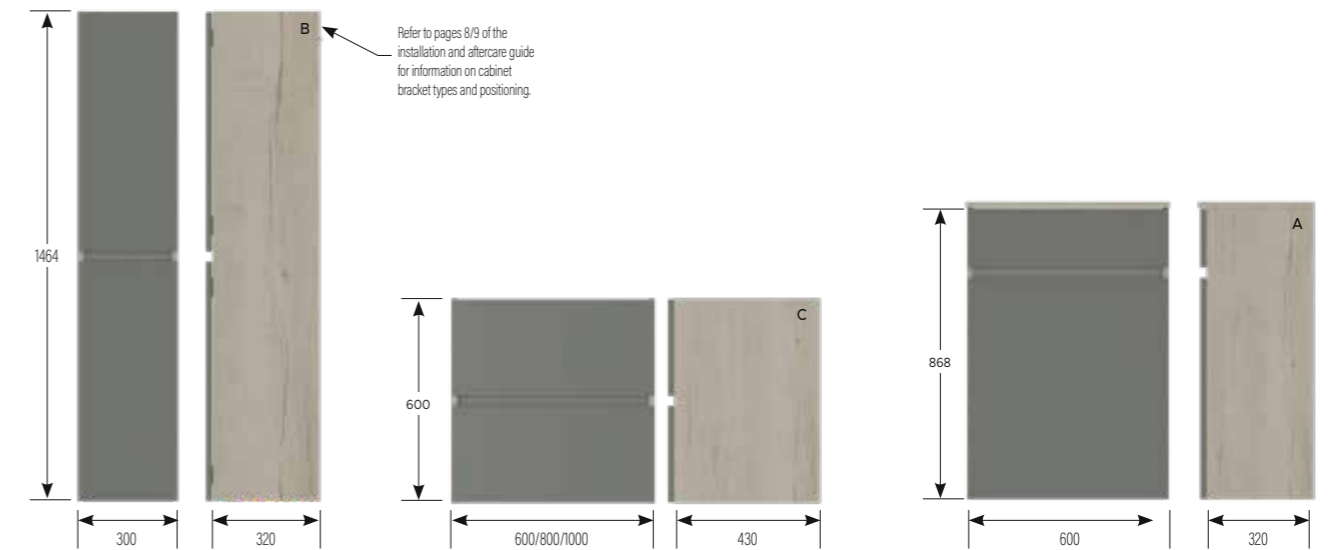

Please Note:  
Letters 'A' 'B' & 'C' indicated in cabinets are for positioning of wall hanging brackets. Please use diagrams on page 9 of your Installation & After Care Guide for dimensions showing fixing positions.

## Planning

**Modular** cabinets available in sizes as specified below.  
 Depths are excluding fascia

**Modular Bello** cabinets available in sizes as specified below.  
Depths are excluding fascia

**Modular Apri** cabinets available in sizes as specified below.  
 Depths are including fascia

Bathroom lighting

Electricity and water are a dangerous combination so when choosing bathroom lights, it is essential you are aware of IP Rating and Bathroom Zones. You need to ensure that the fittings you choose have the relevant IP rating for the Zone in which it is to be used.

IP Ratings

IP (or “Ingress Protection”) ratings are defined in international standard EN 60529 (British BS EN 60529:1992, European IEC 60509:1989). They are used to define levels of sealing

effectiveness of electrical enclosures against intrusion from foreign bodies (tools, dirt etc) and moisture.

What do the numbers in an IP Rating mean?

The numbers that follow IP each have a specific meaning. The first indicates the degree of protection (of people) from moving parts, as well as the protection of enclosed equipment from foreign bodies.

The second defines the protection level that the enclosure enjoys from various forms of moisture (drips, sprays, submersion etc).

FIRST DIGIT (intrusion protection)		Second Digit (moisture protection)	
1	No special protection.	1	No protection.
2	Protection from a large part of the body such as a hand (but no protection from deliberate access); from solid objects greater than 50mm in diameter.	2	Protection against condensation.
3	Protection against fingers or other object not greater than 80mm in length and 12mm in diameter.	3	Protection against water droplets deflected up to 15° from vertical.
4	Protection from entry by tools, wires etc, with a diameter of 2.5 mm or more.	4	Protected against spray up to 60° from vertical.
5	Protection against solid bodies larger than 1mm (e.g. fine tools/small etc).	5	Protected against water spray from all directions.
6	Protected against dust that may harm equipment.	6	Protection against low pressure water jets (all directions).
7	Totally dust tight.	7	Protection against strong water jets and waves.
		8	Protected against temporary immersion.
		9	Protected against prolonged effects of immersion under pressure.

eg: IP 4 4

Zone 0

Inside the bath or shower. Any fittings used here must be SELV (Separated Extra Low Voltage – max. 12Volts) and have a minimum rating of IP67.

Zone 1

Above the bath or shower to a height of 2.25m. A minimum rating of IP44 is required. In this zone, if there is likelihood of water jets being used for cleaning purposes, a minimum of IP67 is required. Also, subject to IP rating, SELV or 240V luminaires may be used in this zone; if the fitting is 240 volts, a 30mA residual current device (RCD) must also be used to protect the circuit in this zone.

Zone 2

The area stretching to 0.6m outside the bath or shower and above the bath or shower if over 2.25m. An IP rating of at least IP44 is required. In this zone, if there is likelihood of water jets being used for cleaning purposes, a minimum of IP67 is required. Also, subject to IP rating, SELV or 240V luminaires may be used in this zone. In addition, it is good practice to consider the area around a wash basin (within a 60cm radius of any tap) as Zone 2.

Outside Zones

Anywhere outside zones 0, 1, and 2. Where water jets are not to be used for cleaning purposes, the general rules of BS7671 apply. Here, there is no requirement for any lighting solutions to be protected.

This information should be used for guidance only. Always refer to the current IEE Wiring Regulations or a qualified electrician to ensure that you are guided by the latest codes of practice.

Installation of electrical lighting must be made in accordance with the current IEE wiring regulations and relevant building regulations. We recommend that all electrical bathroom products should only be fitted by a suitably qualified electrician.

Cisterns

Concealed cisterns used within our furniture are manufactured in the UK by Thomas Dudley, whom are market leader within water technology.

Cisterns are supplied factory assembled, with top and front access panels and easy fit, push fit plumbing fittings.

Cisterns are factory set to 6ltr |4ltr flush, however they can be quickly converted to 5ltr|3ltr or4ltr | 2.6ltr flush settings to offer further water saving opportunities.

When purchasing both cabinet and concealed cistern fittings from us, we will prepare the cabinet in advance of installation, to accept Thomas Dudley Vantage cistern.

This includes drilling and sealing the top fascia to accept the control button(s).  
The Vantage cistern features a polystyrene insulation jacket, (exception 400mm width) which reduces noise and condensation, offering protection to your furniture and floor.

Delay fill hydroflo inlet valve ensures the cistern only starts to refill the cistern, once flushing is complete. We offer three flush control options

See below for flush button options and refer to Price Guide for Furniture & Concealed Cistern Options and prices.

We strongly recommend Thomas Dudley Vantage concealed cisterns for use within bathroom furniture.

It is easy to fit, quiet in operation, protects against condensation and offer three control options. Crucially it is reliable and safe, holding WRAS accreditation and approved by the European water label scheme.

Installation & After Care Guide

Every Avalon Bathrooms cabinet order will come with its own personalised Installation & After Care Guide which also contains your Guarantee Registration Form.

Within this guide your installer will find advice to assist with a perfect installation, including -

- Recommended heights for hanging brackets.
- How to adjust and secure the hanging brackets.
- How to adjust hinges and drawers.

The Guide also contains care and maintenance advice for all the different materials within your bathroom purchase

to ensure that your bathroom maintains its looks throughout its lifespan.

Finally, once your bathroom is installed remember to activate your guarantee by completing and returning the form at the back of the guide.

**Not suitable for Wet Rooms.**

SCAN ME!

FOR INSTALLATION INSTRUCTIONS

**Installation**

The guidelines should be followed, all edges should be fully sealed taking special care with work surface joints and edges, around basins and especially bath panels. Hung cabinets must be secured using adequate fixings, the working load of the internal hanging brackets are shown in the instructions.

**Maintenance & After care**

Water spillage, heavy condensation and cleaning with chemicals should be avoided. Clear up any spillage and wipe dry any excess moisture. Ensure adequate ventilation has been created thus minimizing the effects of condensation. Surfaces should be cleaned with a damp cloth, mild solution of liquid soap in water and polished with a dry cloth. Do not use abrasive cleaners, solvents or furniture polish.

**Colour reproduction**

Colour reproduction in all publicity is dependent upon the photographic and printing processes available. We recommend that an actual sample is viewed to ensure close matches are acceptable.

**Non Returnable**

Avalon Bathrooms furniture is proudly manufactured to order in Great Britain, for your requirements. Please ensure your requirements are thoroughly checked before committing to order. Wrongly ordered or surplus to requirement goods cannot be accepted for return.

**Copyright License:**

Copyright and intellectual property rights are maintained by the company and reproduction of any part of Avalon Bathrooms artwork, photography, logo or price list, may not be reproduced in any form without the written permission of the company.

E & O E. In our continued process of product development we retain the right to alter and amend materials and specification without prior notice. See terms and conditions of sale.

Guarantees

**Furniture** - Domestic use only.

Avalon Bathrooms furniture carries a 5 year guarantee, from the date of purchase, covering failure through defects in design and manufacture and material failure. It is essential that products have been installed to the instruction guidelines, and maintained in accordance with the care requirements. We undertake to repair or replace at our discretion. Liability does not cover consequential loss or damage, refitting or redress for same.

**Ceramic Sanitary ware Guarantee**

Against manufacturing defects covered by a one-year guarantee.

**Cast Marble Basins**

Against manufacturing defects covered by a one-year guarantee.

**Other Items**

Mirrors, handles, toilet seats, electrical fittings and components together with illuminated mirrors are covered by a one-year manufacturer's guarantee. Cisterns, taps, shower kits, including handsets, metal flexible tubes and pop-up wastes carry a one-year manufacturer's guarantee.

**Laminate Worktops**

Against manufacturing defects all laminate worktops are covered by a five-year manufacturer's guarantee.

**Solid Surface Worktops**

Against manufacturing defects all solid surface worktops are covered by a five-year manufacturer's guarantee.
