## TO OUR BOOK OF ACCESSORIES

No project is complete without the attention to detail and bespoke refinement made possible by carefully selected accessories.

Refinements are tailored to the individual needs of each discerning user. From enhancing furniture with handles and work surfaces, to including lighting for mood or function.

Accessories are a vital part of any project, the majority of which need to be incorporated at the planning stage, to avoid unsightly retro fit or costly post installation adjustments.

Take time and consideration in selecting your refinements from our specially selected and functional accessories.

**SUPERIOR PERFORMANCE**

For high volume traffic kitchens the durability of a worktop is key, for this reason we have launched a range of Aeon technology enhanced performance laminate worktops. With 3-5X more wear, scuff and scratch resistance than a standard laminate combined with improved clarity, colour and fidelity, you can count on these surfaces to look newer, longer.
