

# Installation Instructions / Montageanleitung

## A To remove the drawer / Demontage der Schublade

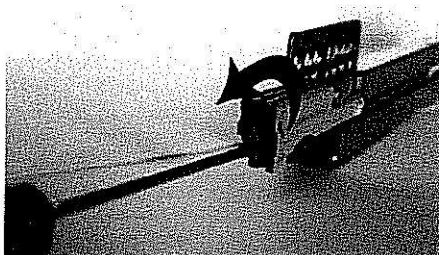

- Pull out the drawer as far as it will go, lift and remove.
- Lade komplett herausziehen, anheben und entfernen.

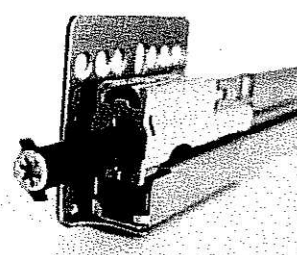

## B Remove Airmatic element / Demontage des Airmatic Elementes

- Pull out the cabinet member slightly.
- Korpusschiene etwas aufziehen.

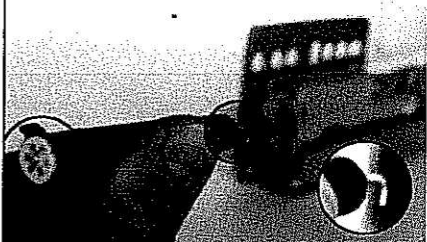

- Release the shock absorber by turning the slotted screwdriver anti-clockwise.
- Dämpfer mit Schlitzschraubendreher gegen den Uhrzeigersinn lösen.

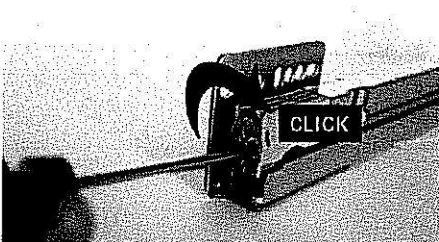

- Push in the cabinet member. This will eject the shock absorber which can then be removed.
- Korpusschiene schließen. Dadurch wird der Dämpfer ausgestoßen und kann entnommen werden.

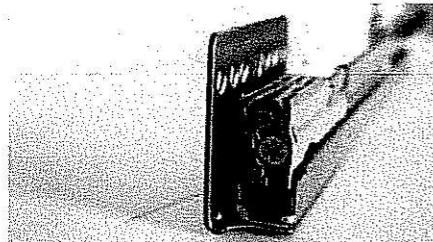

## C To Install the Airmatic element / Montage des Airmatic Elementes

- Insert the shock absorber the right way round
- Dämpfer lagerichtig einführen

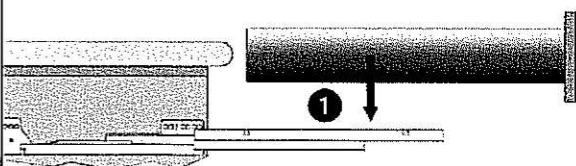

- Fix the shock absorber in place by turning the slotted screwdriver clockwise.
- Dämpfer mit Schlitzschraubendreher im Uhrzeigersinn fixieren.

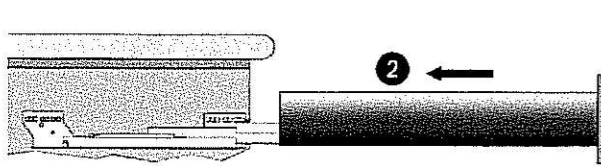

- The shock absorber is now installed.
- Dämpfer eingebaut.

## D To Insert the drawer / Montage der Schublade

- Place the drawer on the cabinet member at a slight angle ...
- Lade leicht schräg auf Korpusschiene aufsetzen ...

- ... push in until the drawer locks in place.
- ... einschieben bis die Lade einrastet.
